

EDD Global Village / Regular stand specifications

The European Development Days are an unparalleled opportunity for the development community to share knowledge, lessons learnt and showcase achievements. The EDD Global Village will be a welcoming space at the heart of the venue for forum participants to share about innovative projects and research initiatives that are addressing development challenges.

The Village will be composed of up to 80 stands that feature projects, reports or programmes related to the EDD's main thread: «Women and Girls at the Forefront of Sustainable Development: protect, empower, invest». The stands are designed to underline the useful, practical and knowledge-sharing aspect of the forum.
